

HEALTH PLAN OF NEVADA  
A UnitedHealthcare Company

# Preferred Drug List

## ▶ 4-Tier Individual

# Four-Tier Individual HPN Drug Benefit Guide

## Introduction

As a member of a health plan that includes outpatient prescription drug coverage, you have access to a wide range of effective and affordable medications. The health plan utilizes a Preferred Drug List (PDL) (also known as a drug formulary) as a tool to guide providers to prescribe clinically sound yet cost-effective drugs. This list was established to give you access to the prescription drugs you need at a reasonable cost. Your out-of-pocket prescription cost is lower when you use preferred medications. Please refer to your Prescription Drug Benefit Rider or Evidence of Coverage for specific pharmacy benefit information.

The PDL is a list of FDA-approved generic and brand name medications recommended for use by your health plan. The list is developed and maintained by a Pharmacy and Therapeutics (P&T) Committee comprised of actively practicing primary care and specialty physicians, pharmacists and other healthcare professionals. Patient needs, scientific data, drug effectiveness, availability of drug alternatives currently on the PDL and cost are all considerations in selecting "preferred" medications. Due to the number of drugs on the market and the continuous introduction of new drugs, the PDL is a dynamic and routinely updated document screened regularly to ensure that it remains a clinically sound tool for our providers.

### Reading the *Drug Benefit Guide*

**Preferred** generic and brand name medications are available at the Tier I and Tier II copayment. In addition, **non-preferred** medications, as well as some medications not listed on the HPN PDL are also covered for a higher Tier III or Tier IV copayment. Certain medications may have quantity, age or therapeutic supply limitations based on FDA approved dosages, literature documentation or P&T Committee decisions. **See your plan documents for a complete list of covered benefits, limitations and exclusions.**

For your convenience, medications are grouped together based on their therapeutic category (i.e., Anti-Infectives, Cardiovascular, etc.) and further separated into drug classes (i.e., Antidepressants, Contraceptives, etc.). Each drug class has a designated section number (i.e., 1-A, 1-B, etc.) and is the reference point noted in the index.

The generic or chemical name is listed to the left of the brand or trade name for each drug. Drugs with a generic equivalent available are identified by an asterisk (\*) before the common brand name of the product (for example, in the listing for ampicillin.....\*PRINCIPEN, indicates that PRINCIPEN is available as a generic and ampicillin would be dispensed by the pharmacy). Drugs that are not available generically have the brand-name listed in **BOLD** print (for example, the listing for rivaroxaban.....**XARELTO**, indicates that there is no generic for XARELTO and the brand name product will be dispensed).

Other abbreviations used throughout the PDL are:

- 1, 2, 3, 4 = tier level for the drug (1 = Tier I, 2 = Tier II, 3 = Tier III, 4 = Tier IV)
- AL = age limitations
- NTI = narrow therapeutic index (generic not required)
- PA = prior authorization
- QL = quantity limitations

- SIO = self-injectable/orphan drug
- ST = step therapy
- SP = specialty drug: see [www.uhcspecialtyrx.com](http://www.uhcspecialtyrx.com)

## **Mandatory Generic Substitution Policy**

Most of our prescription drug plans include a mandatory generic requirement, therefore, if a brand name drug is dispensed when a generic equivalent is available, you will be required to pay the difference between the contracted cost of the generic and brand name drug in addition to the Tier I copayment. *Please note that not all dosage forms or strengths may be available in a generic form. The asterisk (\*) indicates that at least one form or strength of the drug is available as a generic at the time of printing. Check with your pharmacist for more information.*

Since this list is to be used in the decision-making process and does not represent standards of care for an individual, we encourage you to take this reference to all doctor appointments and verify that the drug he/she prescribes is included on this list. You and your provider should discuss the best possible treatment plan and medications to meet your needs. Because a drug is included on our Preferred Drug List does not guarantee that the provider will prescribe that medication. **Your copayment is less if the provider prescribes a preferred medication.**

If you have any questions regarding HPN's Preferred Drug List or to obtain the most current version, please visit our website or contact our Member Services Department. Our representatives are available from 8 a.m. to 5 p.m., Monday through Friday. We are proud to be your healthcare provider of choice. Working together, we can achieve our common goal – to keep you healthy!

mexiletine	*MEXITIL	1	
propafenone	*RYTHMOL	1	
propafenone	*RYTHMOL SR	3	
quinidine gluconate		1	
quinidine sulfate		1	

### 3-F Angiotensin Converting Enzyme (ACE) Inhibitors

Generic Name	Brand Name	Tier	Notes
benazepril	*LOTENSIN	1	QL (60 tablets/month)
captopril	*CAPOTEN	1	
enalapril maleate	<b>EPANED</b>	3	PA
enalapril	*VASOTEC	1	QL (60 tablets/month)
fosinopril	*MONOPRIL	1	QL (60 tablets/month)
lisinopril	*PRINIVIL	1	QL (60 tablets/month)
lisinopril	*ZESTRIL	1	QL (60 tablets/month)
lisinopril oral soln 1mg/ml	<b>QBRELIS</b>	4	
moexipril	*UNIVASC	1	QL (60 tablets/month)
perindopril	*ACEON	2	QL (60 tablets/month)
quinapril	*ACCUPRIL	1	QL (60 tablets/month)
ramipril	*ALTACE	1	QL (60 capsules/month)
trandolapril	*MAVIK	1	QL (60 tablets/month)

### 3-G Angiotensin II Receptor Blockers (ARB's)

Generic Name	Brand Name	Tier	Notes
azilsartan medoxomil	<b>EDARBI</b>	3	QL (30 tablets/month)
candesartan	*ATACAND	3	QL (60 tablets/month)
eprosartan	*TEVETEN 600mg	3	QL (30 tablets/month)
irbesartan	*AVAPRO	1	QL (30 tablets/month)
losartan	*COZAAR 25mg	1	QL (60 tablets/month)
losartan	*COZAAR 50mg	1	QL (60 tablets/month)
losartan	*COZAAR 100mg	1	QL (30 tablets/month)
olmesartan	*BENICAR	2	QL (30 tablets/month)
telmisartan	*MICARDIS	2	QL (30 tablets/month)
valsartan	*DIOVAN 40mg	2	QL (30 tablets/month)
valsartan	*DIOVAN 80mg	2	QL (30 tablets/month)
valsartan	*DIOVAN 160mg	2	QL (60 tablets/month)
valsartan	*DIOVAN 320mg	2	QL (30 tablets/month)

### 3-H Miscellaneous Antihypertensives

Generic Name	Brand Name	Tier	Notes
aliskiren fumarate	<b>TEKTRINA</b>	3	QL (30 tablets/month)
ambrisentan	<b>LETAIRIS</b>	3	PA SP
apremilast	<b>OTEZLA</b>	4	PA ST SP
<b>OTEZLA ST</b> = requires failure of 2 preferred alternatives: Cimzia, Humira, Simponi and Stelara			
bosentan	<b>TRACLEER</b>	3	QL (60 tablets/month) PA SP
clonidine	*CATAPRES	1	
clonidine patch	*CATAPRES-TTS	3	QL (8 patches/month)

QL - Quantity Limits; ST - Step Therapy;

PA - Prior Authorization; AL - Age Limits

SP- Specialty Drugs
